MADE IN SOUTH AFRICA

WELCOME

Garden timber, made to be bought as *one range.*

Ubuntu Garden is a complete range of garden timber for retailers, landscapers, estates, developers and exporters. Fencing, trellis, screens, edging, planters and furniture, designed to sit together on a shelf and in a garden.

Every line has a code and a size list, so orders and reorders are exact. Fill a pallet, a truck or a container from six families, on one order.

HOW TRADE SUPPLY WORKS

From a quote list to a loaded truck.

01

Choose your lines and quantities from this catalogue, on the order form or the website quote list.

02

Send it with your delivery town or port. We reply with trade prices and lead time.

03

Confirm the order. A deposit secures production.

04

We load by the pallet, the truck or the container.

Retailers

A complete, consistent range for your stores, with imagery for your listings.

Bulk buyers

Landscapers, estates and developers: order by the pallet or the truck load.

Export

Container loads quoted to your port, with treatment confirmed for your market.

Timber and treatment

Pine, gum, natural pole and oak barrel lines. Treated lines are pressure treated for outdoor use. The treatment class for each line is confirmed on your quote.

Orders and lead time

We work by the pallet and up. Lead time depends on the mix and the volume, and is confirmed in writing before you commit.

Outside South Africa

Timber treatment rules differ by country. We confirm what can be supplied for your market before quoting a container.

Every line, by code.
